The Second Special Survey No.2 of this vessel became due in June last and has been partly carried out.

The steamer has recently been sold, and the new Owner states that she is intended to be employed almost solely in the Mediterranean trade, and that as in accordance with Italian Law the vessel must be classed with the Registro Italiano, he has decided not to continue the classification with Lloyd's Register.

In the circumstances the Classing Committee, who had the case before them on Friday, 24th instant, decided to give instructions for the character to be withdrawn from the Society's Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owner's request.
