

S. S. "Printo"Tri. 5364.

The machinery and boiler of this vessel were built in 1919 by Messrs. Reiheistig S.B. & E. Co. of Hamburg. A special survey has been held by the Trieste Surveyors with a view to the vessel's classification with this Society and a satisfactory report forwarded.

The screw shaft is slightly below the Rule size, but arrangements have been made for reducing the diameter of the propeller before the vessel is put into service.

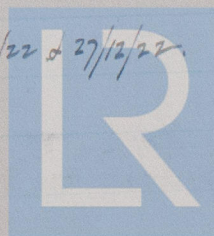

The plans and particulars of the machinery were dealt with in the Secretary's letters E of 9/11/20 and 15/11/20

It is submitted that this vessel **WILL BE** eligible for the record. L. M. C. - 2. 21.

when the diameter of the propeller has been reduced to not more than 8'-7".

S 10.20. OG.
