

Wood 3 masted Auxilary Schooner "BAYMAUD" ex "MAUD", No.  
27167 in the Register Book.

-----

This vessel was built in 1917 not to class, but  
had she been built under survey would have been entitled to  
be classed for 11 years on the A. character.

From the report now received from the Vancouver  
Surveyor it would appear that the requirements of the  
Restoration Survey have been complied with, and in the  
circumstances the vessel might be classed for 7 years from  
the date of completion of the survey.
