The Special Survey No.2 became due on this vessel in March, 1926 and was held on the machinery in December last.

No part of the hull survey, however, has been held and in view of the year of grace having expired at the end of March last, the Kobe Surveyors were requested to ascertain from the Owners what arrangements they proposed making for this inspection to be carried out. In reply the Surveyors state that the vessel has been taken over by new Japanese Owners, who do not desire to continue her classification in the Society's Register Book.

In the circumstances the Classing Committee, who had the case before them on Tuesday, the 23rd instant, decided to give instructions for the vessel's class to be expunged from the Register Book with a red line (8.27), indicating non-compliance with the Society's Rules, and the Owners have been informed accordingly.
