

Yacht "FLYING CLOUD".

From information furnished by Mr. Jacobs (Member of the Committee), it appears that it is the intention of the Owner of this yacht to build a new hull into which the machinery and all the internal fittings at present on board the "FLYING CLOUD" may be transferred.

Mr. Jacobs has suggested to the Owner that he should consult Mr. Barbour, Naval Architect in Genoa, with a view to designing a suitable hull, and that on completion of the design tenders should be invited from Builders in Italy and in this country.
