LLOYD'S REGISTER  
Recd. 29 JUN 1926

Ans'd. 30/8

LONDON

Yacht "FLYING CLOUD"

All communications to  
be addressed to  
THE SURVEYORS.

Dear Sir,

With regard to your letter "M" of the 21st June 1926, we have to advise you that the upper part of the rudder stock is to be made from a shaft of nickel steel which the Builders have in stock at their yard.

They state that this material was prepared in accordance with the specifications of the Italian Royal Navy and they are prepared to give us whatever tests we may require from it.

We are marking test pieces to allow the work to go ahead, but we should be glad if you would advise us whether you require any special tests in view of the nature of the material.

We are, Dear Sir,

Yours faithfully

The Secretary,  
London.
