New York City.

Schooner "Elizabeth Ruth"

Dear Mr. French:

Referring to our letter of January 8th, at the time of writing you, we addressed a letter of inquiry to our clients as to whether or not they had ever received a final certificate of class. They advise us that they never received such a certificate. We had previously assumed that it had been issued some time subsequent to the completion of the repairs at Mobile in May 1920, but this assumption appears to have been erroneous.

We should be very glad if, in addition to the data requested in our recent letter, you could obtain complete information in regard to why a final certificate of class was never issued.

Very truly yours,

OCS:MGG
