Dear Sirs,

We have your letter of November the 16th. with reference to survey of our steam tug "C.C. Mengel Jr.".

On receipt of your letter of August the 7th., this question was taken up with our Home Office at Louisville, Kentucky, U.S.A., and at the present time we have not heard from them with regard to this matter. We have also communicated with the builders of this tug, J. S. Crichton & Company, asking them for full particulars and information relative to this survey, as we were not at all familiar with it, and did not understand exactly what the benefits were, or whether or not it was absolutely necessary for a tug of this size and for the class of work it is used for.

As soon as we are able to ascertain whether or not we deem it necessary to have this survey made, we shall advise you, and in case it is found necessary, proceed with the proper work.

Very truly yours,
MENGEL MAHOGANY LOGGING COMPANY
