2 ENCLOSURES

27th August, 1924.

Dear Sir,

I duly received Mr. Majcen's letter of the 14th instant, enclosing plans of midship section and general arrangement of the s.s. "PROMONTORE", for which vessel this Society's classification is now desired, and with regard thereto I shall be glad if you will be good enough to furnish me with the following information, viz:-

The spacing of the solid floors in the double bottom. If solid floors are not fitted to every frame particulars of the open floors should be stated.

Scantlings and particulars of the floors and keelsons in way of the single bottom.

Particulars regarding the attachments of the web frames at the top and bottom.

Particulars of the widely spaced pillars and girders, including their positions and principal scantlings.

Particulars regarding the height of the tween decks, and of the hatchwebs, fore and afters, and horizontal bulb angles on the side coamings, especially as the information indicated on the plans, differs in some respects from that given in the freeboard report.

If the figure "1" is desired particulars of the

equipment at present on board should be submitted for consideration.

The plans in question are returned herewith in order that the above information may be indicated thereon.

At the same time I shall be glad if you will be good enough to forward particulars of the donkey boiler for consideration, and a plan of the same if obtainable, and state whether a spare set of coupling and feed and bilge pump valves are on board.

I am, Dear Sir,

Yours faithfully,

Promontre

Secretary.
