

s.s. "PROMONTORE" (ex "VILLE DE BELFORT")

Plans of this unclassed steamer have been received from the Trieste Surveyors, and have been examined in this Office, as it is proposed that the steamer shall be classed with this Society.

It is submitted the Trieste Surveyors be requested to forward further information with regard to the following particulars, viz:-

The spacing of the solid floors in the double bottom. If solid floors ^{are} not ^{fitted} to every frame particulars of the open floors should be stated.

Scantlings and particulars of the floors and keelsons in way of the single bottom.

Particulars regarding the attachments of the web frames at the top and bottom.

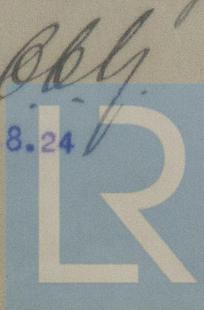

Particulars of the widely spaced pillars and girders, including their positions and principal scantlings.

Particulars regarding the height of the tween decks, and of the hatchwebs, fore and afters, and horizontal bulb angles on the side coamings, especially as the information indicated on the plans differs in some respects from that given in the freeboard report.

If the figure "1" is desired particulars of the equipment at present on board should be submitted for consideration.

The plans should be returned to the Surveyors, for the above information where indicated therein.
