Via della Borsa No. 2,

RECEIVED
LLOYD'S REGISTER
RECD. 26 APR 1924
Trieste (II), 23rd April 1924.
Ans.

LONDON

Dear Sir,

With reference to your letter of the 16th instant regarding the telegrams exchanged at the request of Messrs Carlo Martinolich & figlio regarding the case of the steamer "VILLE DE Belfort" we have to inform you the Society's Surveyors at Bordeaux had already been requested to collect, when rendering their survey account, the amount of Lira 250.- (\$ 2.10.0) covering the cost of telegrams sent from this office and from the London Office.

I am, Dear Sir,

Yours faithfully,

J. G. Tumble.

For the Surveyors.

The Secretary,

LONDON.

ASPEL 11 APR 1924

ASSOCIATION OF SURVEYORS
AND ENGINEERS
OF THE UNITED STATES
AND CANADA

Year

present day the task of surveying by means of theodolite is rendered easier by the use of theodolite & clinometer which makes it possible to take the surveyor's "AUXILIARY INSTRUMENT" to the field and make surveys of buildings, roads, etc., from a distance of 2500 ft. or more. The use of theodolite and clinometer will reduce the cost of surveying by 50%.

I am, Dear Sirs,

Yours truly yours,

John F. Clegg

For the Surveyors.

ferred to the Chief Surveyor.

26 APR 1924

& for Mr. Ascough to note.

The Secretary.

John F. Clegg
