S.S. No. 1-27

am
The Boiler Survey of this tug became due in November last, and from a report now received from a Surveyor appointed by Lloyd's Agent at Bahia, it would appear that the boiler is in very bad condition, and will require to be taken ashore for extensive repairs.

The tug is laid up on the beach at Santa Luzia, and in view of the Surveyor's report and of the fact that, in his opinion, the boiler is not eligible to remain as classed, the Classing Committee, who had the case before them on Friday the 17th instant, decided to give instructions for the vessel's class to be expunged from the Register Book with a red line (529), indicating non-compliance with the Society's Rules, and the Owners have been informed accordingly.
