

RETAIN

PORT OF ROTTERDAM.

10th of May 1901.

Willelm, E. D. van Olliefen

Messrs J. Meyer, Shipbuilders at Zalt Bommel  
( Holland ) issue this report to the effect, that the Screw -  
Steamer designated No' 107 building at their yard is nearing  
completion with the exception of those parts which have to re-  
main unfinished to get the Machinery and Main boiler on board,  
and the spaces for ~~Master, Officers etc~~, which require to be  
further dealt with and completed in Britain.

The vessel will be recommended by me for the Special 100 A-1  
class when transmitting my reports to Lloyd's Register Office,  
London, under the condition that the remainder of the work be  
to the Society's satisfaction.
