Lloyd's Register of Shipping,
Mariner-Horton Building,
Seattle, Washington

Attention:

Attention Mr. C. Hastie

Replying to your various letters of recent date regarding the continuance of class on the barkentine "Forest King".

I beg to say that until we can find employment for the vessel in commission, we will have to refrain from any decision or expense in connection with her classification. We regret that at this writing we cannot say when this will be.

Should it be embarrassing to your society to have this matter in abeyance until such time when this vessel is put into commission, we will have to be satisfied to drop her from class. Will appreciate if you will advise your London office accordingly.

Very truly yours,
