

Single Screw Motorship "BURE".

This vessel has recently been surveyed by Mr. Chalmers at Las Palmas with a view to classification with this Society. The time occupied by Mr. Chalmers from leaving this country until his return is 23 days.

The fee, if based on the ordinary scale charge for the survey and classification of a vessel of this size (hull and machinery) would amount to £88-3-0.

It is submitted that in the circumstances a suitable fee for this case would be 100 guineas, plus the travelling expenses actually incurred.
