

Motorship "BURE".

This vessel is at present classed by the Norske Veritas, but the Owners desire to have her classed with this Society.

She is engaged in the coasting trade at Las Palmas and in reply to a notification that the survey must be held by an Exclusive Officer, and that it might be possible to take the ship to a near Mediterranean port for this purpose, the Oslo Surveyors are advised by the Owners that it is requested a Surveyor may be sent from London to Las Palmas by the steamer "SAN MATEO" leaving London on the 11th instant, and that the Society should confer with Messrs. Fred Dessen & Co., of Lime street Square, to make the arrangements.

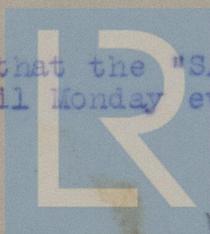

It is considered that this survey could be undertaken by Mr. H.P. Cornish, of the London Outdoor Staff, and it is suggested that the necessary steps should be taken to get into touch with Messrs. F. Dessen & Co. immediately.

J.R.H.
8.7.25.

B.P.

Note:-

Messrs. Dessen state that the "SAN MATEO" will not be leaving London until Monday evening.
