

Lloyd's Register of Shipping.

Collingwood Buildings, Newcastle-on-Tyne.

Enclosure.

16th April 1930.

The Secretary,
LONDON.

Dear Sir,

s.s. "MICHAEL".

We beg to forward herewith a letter received today from the Owners of the above steamer.

The vessel has been examined in dry dock, the shell plating drilled and a specification prepared by the Owners' Representative with a view to getting tenders for completion of the Special Survey (2nd No. 3 at the latter's request) commenced in Cardiff in October 1929.

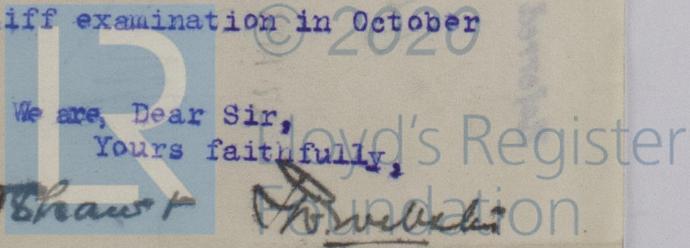

A number of temporary repairs were effected then to the shell plates. These plates and a number of others have now been found, together with other parts of the vessel, to be in a poor condition. It is submitted that the Owners' request for a further postponement of the greater part of the Special Survey which became due in 9-28, be not acceded to, in view of the above remarks and the Secretary's letter to the Owner, sent after the Cardiff examination in October last.

We are, Dear Sir,
Yours faithfully,

W1114-024

Tshawt
