The Special Survey No.2 became due in August 1928 and has been partly held. To complete the survey a bower anchor and 15 fathoms of chain cable require to be supplied.

The case received the consideration of the Classing Committee on the 9th instant when the Owner was informed that it was understood that the new equipment was waiting the vessel at Gibraltar, but as no definite arrangements appeared to have been made for the same to be placed on board, he was asked to arrange for this to receive early attention, in order to entitle the vessel to retain the figure "1" for equipment.

A letter has now been received from the Owner requesting that the vessel's class be withdrawn from the Register Book.

In the circumstances, the Classing Committee again had the case before them on Tuesday, decided to give instructions for the class to be withdrawn from the Register Book and three dots (...) indicating withdrawal of class at Owner's request.
