s.s.No. 2-26  
Carrying Petroleum in Bulk  
Fitted for oil fuel 8,06 F.P. above 150° F.

-----  
The Annual Boiler Survey of this vessel became due  
in September last and has been partly held.

In a letter, dated 18th instant, the Owners state  
that they are compelled by Law to class the steamer with the  
Registro Italiano, and in consequence they regret that, contrary  
to their wishes, they must request the withdrawal of the vessel  
from the Classification of this Society.

The Classing Committee had the case before them on  
Tuesday, 28th instant, and decided to give instructions for the  
vessel's character to be withdrawn from the Register Book and  
three dots (...) inserted in lieu thereof, indicating withdrawal  
of class at Owners' request.

  
30th January, 1930.
