

W112-0021

Shipbuilders: Messrs. *J. Koster, Hzn.*Yard No 5 *160 + 164*Engineers: Messrs. *Deutz*Engine ^{TYPE} No. *M.A.H. 716*

It is submitted that the plan of *Haren - Groningen* Surveyor
 be informed it is noted the Builders merit approval
~~for~~ propose to use for auxiliary purposes in each of these
 provided vessels 10 H.P. Deutz heavy oil engines which have
 not been constructed under survey & that in order to
 avoid delay in the delivery of the vessels it is further
 proposed to fit in these engines crankshafts, connecting
 rods & gudgeon pins, the material of which has been
 tested by the Society's Surveyors, and in the circumstances
 no objection will be taken to this proposal, provided
 the scantlings of the crankshafts be in accordance
 with the Rules, the cylinders be opened up, examined,
 tested by hydraulic pressure & found sound & tight
 and the engines be tried under working conditions
 and found satisfactory
