February 22nd, 1930.

Betreff

M/V "PACIFIC GROVE".

Dear Sir:-

We beg to acknowledge your telegram of 21st inst:

" Pacific Grove new compressor casting received examined and condemned by British Lloyds Register who refuse allow to be fitted in vessel therefore you must supply further new sound casting important you telegraph us how long you require stop we would suggest you send patterns enable us make this here at your costs to save time stop this is causing further serious delay to vessel - writing "

whereupon we wired you today as follows:

" Pacific Grove yours twentyfirst stop we insist on validity of acceptance of compressor casing by Lloyds in Kiel matling".

We are placed before the fact that a casting which was accepted here by the acceptance officer of the British Lloyd without any objections whatever, has been condemned by another officer in England. For your kind information we beg to annex one photograph of the acceptance report of 8th inst.

Regarding this matter we have first to go into connection with the British Lloyds and in a few days we shall come back hereto.

Yours truly

DEUTSCHE WERKE KIEL
