Kob.

No. 2223

remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Survey

As the approved plans referred to in the reports have not yet been received, the Kobe Surveyors should be requested by cable to state whether, in view of the frames in the Engine & Boiler space being 10 x $3\frac{1}{2}$ x .62, a web frame has been fitted as required by the Secretary's letter of the 16th March 1916; also whether "D" strake of plating is .56" in thickness as shown on the approved plan and the ~~quadruple~~ ^{quadruple} rivets in the butts of the sheerstrake ^{are} _{spaces} 4 diameters apart.
