H.

Dear Sirs,

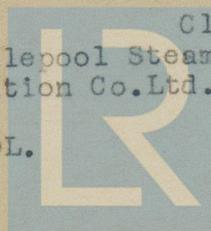

With reference to your letter of the 18th July last respecting the motorship "CLIFTONHALL", I shall be obliged if you will kindly let me know what arrangements you propose making for the screwshaft to be drawn for examination or for the propeller to be backed off to permit an examination of the cone.

In connection with the Continuous Survey of this vessel's Oil Engines I take the opportunity to point out that none of the side and centre crossheads and crankshaft journals has yet been submitted to inspection.

I am, Dear Sirs,

Yours faithfully,

Clerk to the
Classification Committee.
