The First Special Survey No.2,
in July, 1929, has been partly held by the
dry dock.

The Donkey Boiler Survey became due
and the Screw Shaft Survey in July last.

Action has been deferred from time to time.
Genoa Surveyors reporting in March last that the vessel
laid up at Savona.

The Owner was asked to furnish the usual Undertaking
on the 6th ultimo and was again written to on the 12th ultimo.
The Undertaking has not been furnished, and the Owner, in a
letter dated 21st August, states that he desires to cut down
expenses and requests that the classification of the vessel
in the Society's Register Book may be cancelled, adding that
it is sufficient for him to class the vessel in the Registro
Italiano.

The case received the consideration of the Classing
Committee on Tuesday, 2nd instant, when it was decided to
give instructions for the vessel's character to be expunged
from the Register Book with a Red Line (———), indicating
non-compliance with the Society's Rules. 9,30
