Lloyd's Register of Shipping.

71, Fenchurch Street, E.C. 3.

4th August, 1921.

Dear Sirs,

With reference to your First Entry
Report No. 8025 on the Steel Twin Screw Steamer "PRIMULA"
I have to inform you that it appears from a report received
from the Society's Surveyor at Naples that this vessel, which
was under Survey at that port, is now returning to Genoa,
and that to complete the Survey for Classification it would
appear that the following work remains to be done, namely:-

Decks and forepeak tank to be tested.
An additional length of chain cable to be supplied.
The third bower anchor replaced by one of suitable
weight.

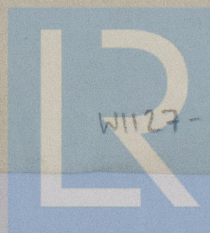

I shall therefore be glad if you will
give the case the necessary attention, and forward a
report on form 8 in due course, on completion of the Survey,
with a view to Classification of the vessel.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
GENOA.

Secretary.
