

Fishing Vessel "LA CIGOGNE"

This fishing vessel built in Holland in 1924 has recently been surveyed by the Society's Surveyor at Boulogne for first classification, and the Surveyor was joined by Mr. Crighton, the Society's Exclusive Surveyor at Dunkirk.

The Boulogne Surveyor proposed charging fees amounting in all to £15. 10. 0, and in reply he was informed that an inclusive fee of £20. 10. 0 should be charged.

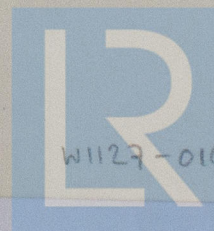

He now states that he was informed by a Bank that all credit had been refused to M. Friess, the Owner, and he thereupon called on M. Friess with a receipt for £15. 10. 0, which amount he was ultimately able to collect.

The Surveyor thought it best to accept that sum rather than lose everything, and it is submitted that in the circumstances the balance of £5 should not be pressed for.
