VESSEL'S NAME S.S. "WEST HAVEN" (ex "WAR FLAME") Report Sea. No. 555
(Built by the Skinner & Eddy Corporation to Class 100 Al.)
For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR.

(In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/32.)

Nature of Survey

When due

In this vessel a watertight bulkhead is omitted in the fore hold and also in the after hold - 5 bulkheads having been fitted instead of 7 bulkheads as required.

A letter from the original Owners - (the Cunard Steamship Company), agreeing to the omission of the bulkheads has been forwarded, but the vessel is now owned by The United States Shipping Board Emergency Fleet Corporation.

In the case of the sister vessel "JEANETTE SKINNER" etc, built by the Skinner & Eddy Corporation, a letter from the original Owners regarding the omission of the bulkheads was accepted.
