17 Battery Place,  
New York, N.Y.

S/S "WEST KEDRON" N.Ns. Report #5290 &  
Balto. " #7159.

Dear Sir:-

I am in receipt of your letter of January 31, 1941, having reference to the above named vessel. Mr. Buchanan was in the office this morning and was given an opportunity to look this letter over to which he will reply in due course, as far as he is concerned.

This vessel as you probably know came from the Idle Fleet in the James River and was dealt with entirely at this port.

With regard to the enquiry in the latter part of the letter, blank flanges are provided as required by the rules in the case of the deep fuel oil tank. Wood lining and gutterways are also fitted in way of the fuel oil tanks.

Yours truly,

CJH/MP
