

N.Ns.5290.

S/S "WEST KEDRON"

This vessel was built in America in 1920 and was classed with the American Bureau of Shipping.

A survey has ^{now} been held by the N.Ns. Surveyors with a view to classification with this Society. The machinery is similar to that in the S.S. "SAN VINCENTE" recently surveyed for classification.

Various repairs have been carried out. All plain tubes in the boilers have been renewed. Main crankshaft journals, condenser tubes, and circulating pump have been renewed, and an additional General Service Pump fitted.

*It is submitted that
this vessel is eligible for
THE RECORD.*

LMC. 8,40.

S (CL). 6,40.

Fitted for oil fuel ~~8,40~~, F.P. above 150° F.

*210th FD. (+)
3SB 9CJ NS 8112.*

It is concluded that blank flanges are provided for the Deep Tank connections as required by Section 20, clause 10(b) of the Rules; and that sparring or lining and gutterways are fitted in way of the oil fuel tanks, but this should be confirmed.

*Good. Spare gear to be made
good when the war is
over.*
