Diameter of rivet holes ✓ Pitch of rivets ✓ Percentage of strength of joint { Plate ✓ Rivets ✓
Internal diameter ✓ Working pressure by Rules ✓ Thickness of crown ✓ No. and diameter of
stays ✓ Inner radius of crown ✓ Working pressure by Rules ✓
How connected to shell ✓ Size of doubling plate under dome ✓ Diameter of rivet holes and pitch
of rivets in outer row in dome connection to shell ✓
Type of Superheater None fitted Manufacturers of { Tubes
Steel forgings
Steel castings
Number of elements Material of tubes Internal diameter and thickness of tubes
Material of headers Tensile strength Thickness Can the superheater be shut off and
the boiler be worked separately Is a safety valve fitted to every part of the superheater which can be shut off from the boiler
Area of each safety valve Are the safety valves fitted with easing gear Working pressure as per
Rules Pressure to which the safety valves are adjusted Hydraulic test pressure:
tubes forgings and castings and after assembly in place Are drain cocks or
valves fitted to free the superheater from water where necessary
Have all the requirements of Sections 14 to 22 inclusive for boilers been complied with

The foregoing is a correct description,
FOR THE CENTRAL MARINE ENGINE WORKS,
(W. Gray & Co. Ltd.) Manufacturer.

Dates of Survey { During progress of work in shops - - }
while building { During erection on board vessel - - }
Are the approved plans of boiler and superheater forwarded herewith (If not state date of approval.) no
Total No. of visits 13-1-37

Is this Boiler a duplicate of a previous case Yes If so, state Vessel's name and Report No. "Theofano Livanos" W Hpl Rpt No 17717

GENERAL REMARKS (State quality of workmanship, opinions as to class, &c.) This Auxiliary Boiler has been constructed under Special Survey and in accordance with the approved plans for a working pressure of 225 lbs per sq inch. The materials and workmanship have been found good.
Upon completion the Boiler was tested in the presence of the undersigned with hydraulic pressure 388 lbs per sq inch, showed no signs of weakness and was found tight and sound in every respect at that pressure.

Survey Fee ... £ : : } When applied for, 19
Travelling Expenses (if any) £ : : } When received, 19

J. Brooke Smith
Engineer Surveyor to Lloyd's Register of Shipping.
