Reference

E.

Sir,

In reply to your letter of the 18th. inst. with reference to the first entry machinery report No. 28358 on the steam trawler "Commander Horton", I beg to inform you that the circulating pump draws from bilge injection, through the condenser. This valve may be considered as connected to both the condenser and circulating pump.

I am, Sir,

Your Obedient Servant,

P. Fitzgerald

The Secretary,

London.
