Designers and Builders of  
STEEL SHIPS, MARINE ENGINES AND BOILERS  
DRY DOCK PROPRIETORS

MANITOWOC, WIS.  
June 15, 1928.

Uraga Shipbuilding Company, Ltd.,  
Yokohama, Japan.

Gentlemen:

The Great Lakes Dredge and Dock Company having purchased boilers which came out of the Mi-Ko-Ko Myru built in your yard and sold to the Shipping Board delivered in San Francisco on October 18, 1918. I found in searching the records of the Shipping Board at Washington a letter from Mr. Cox who was at that time sales director, acknowledging receipt of papers in regard to this ship from either Lloyds or your yard in Yokohama, the numbers of which are 26739 and 13040. Should you gentlemen be able to assist us in obtaining a copy of these records mentioned. I should be greatly obligated for same.

8  
If you have no information on this subject, would you kindly get in touch with Lloyd's office in Yokohama and ask them if they would forward us same?

One of the particular boilers in which we are interested was marked with the Lloyd's tag U-138, J. S. Cairns, 10-6-18, hydrostatic pressure 400 pounds.

Yours very truly,

signed by Mr. CHColton
