

## POSTPONED SURVEYS.

Case of the Steel Barge "MOJARRA"

No. 03604 in Reg. Bk. \_\_\_\_\_ tons, Built 1937-3ms  
 Classed +A- Barge to be Owners Cia. Naviera San Cristobal SA.  
toned 3,37. (Operated by the Mexican Government)  
Can. Bk. in hull. Port of Registry Coahuacoalco.  
for Coastwise Service in  
the Gulf of Mexico

Survey Due Special Survey No. 1 due 3, 41.

In December last the New York Surveyors wrote that Lloyd's Agent at Tampico was arranging with the Owners for the above survey to be held at the earliest convenient date.

Lloyd's Agent at Tampico has now informed the New York Surveyors that it is the Owners' intention to have this vessel and their other small craft surveyed as opportunities for hauling out are available, but as the Owners have a large fleet of barges, etc., and there are only two slipways in Tampico where they can be hauled out and repaired, it is impossible for the work to be done speedily in spite of the Owners' anxiety to deal with this matter.

Lloyd's Agent adds that he is sure the Owners are doing all they possibly can to get the surveys of their vessels up to date but under present conditions they are handicapped to some extent.
