

same strake scored - in other respects bottom good. Fore peak tank examin

W1155-0099

WOKINGHAM COPY.

Extract from letter received from our New York office  
7th September 1942.

S.S. "R.W.GALLAGHER", N.Ns. 5527 - The Surveyor confirms  
that the safety valves and superheater safety valves were  
adjusted to 150 lbs. and 423 lbs. pressure respectively.
