

Motor Tanker "SOLHEIM"

On the 26th ultimo the Copenhagen Surveyors were requested to forward to this Office copies of the Interim Certificates issued for this vessel and her machinery, and were also asked to state whether copies were sent with the First Entry Report in the usual way, as these could not be found.

The Surveyors now forward copies of the Interim Certificates which were issued, and state that a copy of the certificate for the hull was forwarded with their First Entry Report, together with the forging reports, whilst no copies were sent in the case of the machinery, as it has never been their practice to forward copies of Interim Certificates in connexion with first entry reports on machinery.

IT IS SUBMITTED the Copenhagen Surveyors be informed that in all cases where interim certificates, whether for the hull or machinery, are issued, copies should be sent to this Office.
