High Close,  
Workingham, Berks.

*10017/3*

Dear Sirs,

"St. Margaret" - No. 1 Survey.

In connection with the completion of No.1 Survey we regret we were unable to have tested more than one double bottom tank both at the ports of Avonmouth and Cardiff.

Instructions have been given to the Master to have Nos. 1, 2, 3 & 4 tanks ready when the vessel reaches her discharging port (Rio de Janeiro), and to communicate with your Surveyor when he is ready at that port.

We trust this will meet with your approval.

Yours faithfully,
