Sir,
 Replying to your letter of December 1st in reference to the water ballast tanks of the steamer "Evangelos" of "War Driven" being made, whilst under construction, suitable for the carriage of oil fuel, I beg to state that I had an interview with Mr. Fowling on the matter, in which I stated, that to the best of my recollection, both the above vessel and her sister ship the "War Sniper" were so constructed, the latter of which I was quite certain, but the former having been tested by Mr. Stewart. Then assisting me at Hong Kong, decided to write to him for confirmation, but his reply, since received is so unsatisfactory that I cannot place any reliance on it before you.

I think however that my statement

CONFIRMED
is confirmed and made clear by Mr. Gardiner in his first entry reports of both vessels, that they are so constructed, information of which, not actually seen by him, he will have obtained from the Journal and notes left by me, and which he has given in his first-entry reports.

Dear Sir

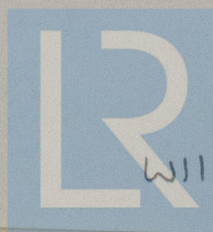

Your obedient servant

Wm. Lambert

The Secretary
