Dear Sirs,

No. 1014.

In connection with the plan showing Profile and Deck Plan of the above vessel and which was similar to Nos. 1008 G. and 1009 G, it should be noted that the Oiltight Hatches in the above vessel are to be ~~4 ft.~~ 3' 6" wide as against the 3' 6" width in our Govan ships.

We are presuming, however, that it will not be necessary for us to increase the thickness of the deck plating, and we shall be obliged if you will confirm that this is in order.

Yours faithfully,

For HARLAND AND WOLFF, LIMITED,

*T.C.T.*
