T.S. "DUNEDIN STAR"

It is submitted the Liverpool Surveyors be informed that they are in error in including the tonnage of the enclosed spaces in the shelter tween decks in the under deck tonnage to be recorded in the Register Book.

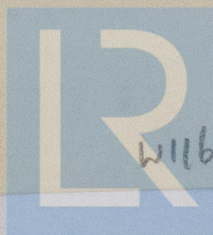

These spaces being above the tonnage deck, which is also the freeboard deck, are excluded from the under deck tonnage but are included in the gross tonnage.

The figures recorded in the Register Book are in accordance with the ship's official Register, and appear to be correct.
