General Remarks (State quality of workmanship, opinions as to class, &c.)

This Machinery has been constructed under Special Survey in accordance with approved plans and Rule Requirements. The Workmanship & materials, so far as can be seen, are good and satisfactory bench trials have been carried out under survey. The two sets which are numbered 61501/A/B. have been despatched to Glasgow where they are to be installed on board and in my opinion will be eligible for inclusion in the Classification and record of +LMC of the vessel.
