

ND'S REGISTE
RECEIVED

5-20 pm

AMILTON & Co (128)
LASSES Co Ltd

10th May, 1928.

Dear Sirs,

S. I have to acknowledge the receipt of your telegram in reply to mine of the 9th instant regarding the length and capacity of the double bottom aft of the M.V. "ATHELMONARCH" as follows:-

"ATHELMONARCH TOTAL LENGTH DOUBLE BOTTOM AFT 45 FEET CAPACITY 300 TONS"

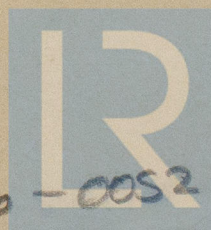

This reply came to hand after I had written confirming my wire, but I may say that the information was urgently required in order that it might appear in the body of the new Register Book, the portion relating to this vessel being due to go to press yesterday.

I am, Dear Sirs,
Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,

GREENOCK.
