E.

M.V. "ARTHURTOWN".

The Antwerp Surveyors report that alterations have been made to the hand steering gear of this vessel. These consist of a new steering wheel of increased diameter (5 feet in lieu of 4 feet) and a new sprocket wheel at the end of the double threaded screw aft, the new wheel having 13 teeth instead of 12, and the chain has been lengthened accordingly.

No alterations have been made to the emergency gear.

It is understood the London Surveyors have been in communication with the Owners with a view to further modifications being carried out, and it is submitted this report be referred to them in order that the proposed alterations may be submitted for the approval of the Committee.

vessel has now proceeded.

In the opinion of the Surveyors, however, these
