The Principal Surveyor,
Lloyds Register of Shipping,
201 Tower Building,
Liverpool 3.

Dear Sir,

VESSELS NOS. 1053 AND 1054

We are in receipt of your letter of the 15th instant with reference to the scantling of the bottom longitudinals in the Pump Rooms. The span of these longitudinals is 11'-8.1/4", the longitudinals being attached at each end by horizontal brackets to the transverse bulkheads.

We consider that a 15 x 4 x 4 x .50/.62 channel with a 4 x .50 rider plate fulfils the requirements and shall be glad to have your confirmation of these scantlings.

Yours faithfully,
FOR AND ON BEHALF OF
CAMMELL LAIRD & CO. LIMITED
