Reference

S.

The Secretary.

LONDON.

Dear Sir,

With reference to your classing letter dated the 18th instant respecting the M/S "KOLLEBJÖRG", Gothenburg First Entry report No.11282, I beg to state that the auxiliary compressors are driven by the auxiliary engines.

The moving parts of the switches are not in alive position with the exception of the steering gear/switch.

With regard to the fees charged for the survey of the electrical installation I beg to acquaint you that a deduction has been made by us on account of the 100 Kw. generator in this installation being tested at the works by this Society.

I am, Dear Sir,

Yours faithfully,
