Lloyd's Register of Shipping.

Port NEW YORK

MAY 8th, 1942

This is to Certify that I have
Surveyed the ~~Boiler~~ and Machinery of the M.V. "NORVIK"
9555 tons gross register of Panama for part Continuous Survey
of Oil Engines

and that I have transmitted to the Committee of Lloyd's
Register of Shipping, London, a Report stating that all
recommendations made by me in connection therewith have
been carried out to my satisfaction, and that I have
Recommended that the record of +LMC-OS with date

be made in the Register Book in the case of this vessel when
the survey has been completed.

Parts now examined:—

Main Engines:— Scavenge pump cylinder, pistons & valves examined and
found good. Forward and aft starting air receivers ex-
amined internally & externally, including all valves
and fittings and found good.

Auxiliaries:—

Forward Feed pump and stand by Piston cooling water
pump examined and found good. Emergency generator
engine and emergency compressor examined in their
entirety and found good.

Engineer Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
