Dear Sir,

"INNERTON".

We beg to state we were recently informed that certain alterations had been carried out to this vessel's Electric Installation including removal of one Generator and it's replacement by a new one.

In reply to our enquiry, the Owners state they will afford an opportunity for the alterations to be inspected by the Society's Surveyors on the vessel's return to the U.K., although they do not expect that she will be available for two or three months.

We are, Dear Sir,
Yours faithfully,
THE SURVEYORS,
