

The first entries on motorships  
"HOEGH SILVERDAWN" (built by A/S Burmeister & Wain)  
and "SLOTTERDYK" (built by the Odense Company) have  
received the consideration of the Committee within  
the last few days, but attention is drawn to the  
fact that the first entry fees were only applied  
for on the 3rd and 1st instant respectively.  
Instructions are desired as to what action should  
be taken regarding the fees, issue of classification  
certificates and posting in the Register Book, seeing  
that both ships were built in the Copenhagen district.

17.4.40.

The Secretary confirms that as the  
whereabouts of Mr. Leif Hoegh are uncertain, the  
question of the fees in this case should be left in  
abeyance. The matter should, however, be raised  
before printing off this vessel's section in the new  
Book.

24.4.40.
