INVERARDER

27th January, 1942.

SOUTHAMPTON

17979

As recommended.

17977 "INVERARDER" As recommended. No mention has been made in your hull report regarding the Second Special Survey No.2 which becomes due in March next, and I shall be glad to learn what items of survey now carried out could be accepted as part of this inspection and whether, as the result of your present survey, you could recommend a notation of "Examined 12,41" valid for twelve months to be assigned, seeing that as she is a tanker over 12 years old she would become due in accordance with circular No.1772 for General Examination in March next.
