27th August, 1937.

MALMO.

1599. As recommended.

1600. "LESTRIS". Deferred for completion of 3rd Special Survey No.3, but assigned a notation of B.S.6,37 subject as recommended.

"KONGSGAARD". I am in receipt of your letter of the 18th instant, and in thanking you for your remarks regret to find that when making my enquiry of the 17th instant the fact that the desired information already appeared in your report 5a was overlooked. It is now observed that your report states that a waste heat boiler in accordance with Hamburg report No.22366 has been fitted in the vessel, but from the photographic copy of this report which is in your possession you will see that this boiler was originally intended for Kockums Mek. Verkstads No.200. It is therefore concluded that the boiler referred to in Hamburg report No.22367 will now be fitted in this latter vessel.
