Enclosures

30th June, 1937.

Dear Sirs,

M.

I return herewith two copies of each of the plans, forwarded with your letter of the 21st instant, of riveting section, upper stringers, lower stringer, stringers in oil fuel bunkers and key plan of stringers for Messrs. Furness Shipbuilding Co.'s Yard No. 283, and with regard thereto I have to state that provided the arrangements be carried out as shewn and amended and to your satisfaction, they will be approved.

The remaining copies of the plans are being retained for reference.

The plan of riveting section has been discussed by telephone with Mr. Goldsbrough, who stated that the thicknesses of the upper deck plating will be probably modified (and a further plan submitted) involving an alteration in the size of the rivets used. In these circumstances it was arranged that in the meantime this plan should be regarded as cancelled, and it has therefore not been dealt with.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

MIDDLESBROUGH.

Secretary.
